Welcome to join The Baltic Sea Region Hydrogen Network Conference 2017. The conference will take place at the Opera Hotel in Riga, Latvia the 6-7th of December 2017.

The Baltic Sea Region (BSR) with 80 million people in a large territory and with the Baltic Sea as a sensitive ecosystem, calls for new innovations and solutions for sustainable, multimodal and green transport corridors. There is a need to establish a system that underpins European economic progress, enhances competitiveness and offers high quality mobility services while using

resources more efficiently.

The Baltic Sea Region Hydrogen Network Conference provides an arena for national stakeholders to meet and learn from each other in order to be able to develop and promote transnational solutions for these challenges.

Speakers from the fuel cell and hydrogen industry along with other hydrogen stakeholders from Baltic

and Nordic countries will be on the speaker list.

PROGRAM

- The Baltic Sea Region Strategy
- Hydrogen – a component for a zero-emission transport system in BSR
- Business aspects of the production and distribution of hydrogen

REGISTRATION FEE

Participation in the conference is financed by the Swedish Institute.

For more information about The Baltic Sea Region Hydrogen Network, please contact Project Manager *Louise Weinreder*, Hydrogen Sweden, louise@vatgas.se or +46 (0) 731-48 84 44. Registration will be opened shortly.
